NAMMA Conference 2020 Sponsorship Opportunities

The Annual Conference of the North American Maritime Ministry Association is the most broadly diverse gathering (from all backgrounds and ports) of maritime agencies and port welfare workers in North America. Join us and network with those on the front lines of the human relations and seafarer welfare efforts in the maritime industry.

In 2019, the **Annual Conference** of NAMMA will take place in Ottawa, Ontario, Canada from **April 14-17**. Held at the newly renovated Novotel Ottawa (33 Nicolas St) in Ottawa, this is the only major conference of industry professionals, maritime welfare agencies, their chaplains, and volunteers in North America. This conference is particularly important to support and celebrate the formation of a new Canadian Seafarers' Welfare Board. The conference provides networking, discussion of important maritime issues, and training. This event will bring together a large audience of maritime ministry and welfare agencies in one venue.

NAMMA is a network of more than 50 affiliated agencies and individual members who work for seafarers' welfare around North American and the Caribbean.

“The NAMMA Conference will be the largest seafarers’ welfare conference in North America in 2020.”

Maritime companies and other non-profits are invited to participate in the event. This is an excellent opportunity to:

- showcase your resources,
- make visible the role your company plays in the maritime industry,
- participate in discussions concerning the overall maritime industry, and
- build vital connections with those directly involved in ports throughout the US, Canada and the world.

Why Exhibit at the Conference?

We Promise Value . . .

- To bring key leaders of NAMMA, its partners, and ports served by NAMMA agencies and members.
- To get your company’s name and list of products and services into the hands of all attendees with a listing in our exclusive annual magazine distributed around the world.
- To provide opportunity for intimate networking with all participants giving time for making personal contact with attendees; offering effective relationship-building like no other conference.

- To keep costs at a minimum – well below other advertising and exhibiting venues.
